Baran Ceramic

About Baran

In 2006 Baran Ceramic began supplying building materials in Sulaymaniyah,

The CEO and founder of Baran Ceramic (Twana Arif) started to bring sanitary ware products from outside Iraq and the business started growing from there.

The name (Baran) is a Kurdish word for (Rain) which is a symbol for cleanness in Kurdish culture, the name became a brand instantly and get well known in Sulaymaniyah – Iraq, now it's one of the top companies that provide best quality building materials and sanitary ware products.

Baran Ceramic Building in Iraq – Sulaymaniyah

About the Product

Baran's faucets are manufactured with high quality stainless steel brass products, with 10 years of guarantee, A well-designed product equally elevates form and function. It is pleasing to look at, easy to use and solves common problems.

Our company also have full body porcelain tiles, which they started to import to Iraq since 2013 from different factories around the globe.

We have a section for (PVC – PPR – PP) pipes since 2017 which is also produced outside of Iraq.

The Company's Branches

Currently Baran company only have three branches and they are in Sulaymaniyah, in future there are plans to widen the branches around the country, while the company have customers around Iraq and Kurdistan, there are also shopkeepers which buy large quantity of Baran Ceramic's products.

People's Choice

Our company's products reached and used by majority of people in Iraq, also it's used for large projects like (Hotel Ramada - Dania City ... etc).

because of its delicate design it gained trust amongst interior designers and architectural engineers to use on their projects and make their designs more classy and elegant.
